### **Status of Application**

1. Applicant's amendment, filed Jan 12, 2006, has been entered in the application. Claims 1-16 remain pending.
2. Applicant's remarks, at page 5, refer to claim 9 as having been canceled, however a complete instance of claim 9 has been provided with the claims submitted. Applicant's intention regarding this claim is not clear

### **Claim Rejections 35 USC 112**

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 14, the recitation of "a pair of ... members ... connected to each side" is confusing in that it is not clear whether this refers to each side having a separate pair, or two members each connected to the two sides, or a member connected to each respective side; compare, for example, to line 11, wherein the recitation associated with the fulcrum leg members appears more clearly set forth; in claim 2, lines 8-9 it is not clear which leg member and which link member of the pairs recited in claim 1, lines 11 and 14 are being referred to; in claim 2, line 11, the recitation of each end of a cross bar being connected to a single link member is confusing (compare with the original recitation).

### **Allowable Subject Matter**

4. Claim 1, as best understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
5. Claims 2-11, as best understood, would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. Claims 12-16 are allowed.

### **Response to Comments**

7. Applicant's comments concerning the prior art applied to the previously submitted claims are noted. The examiner agrees that the prior art of record cannot be applied against the claims as currently written. As regards claims currently rejected under 35 USC §112, second paragraph, please note that rejections under 35 USC §102 and 103 should not be based upon considerable speculation as to the meaning of the terms employed and assumptions as to the scope of the claims when the claims are not definite. See *In re Steele* 305 F.2d 859, 862, 134 USPQ 292, 295 (CCPA 1962). When no reasonably definite meaning can be ascribed to certain terms in a claim, the subject matter does not become anticipated or obvious, but rather the claim becomes indefinite. See *In re Wilson* 424 F.2d 1382, 1385, 165 USPQ 494, 496 (CCPA 1970). As such the currently pending claims may be subject to prior art rejections not set forth herein upon the clarification of the claim language.

### **Conclusion**

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
